EXPERIENCE

Operator | Ingrasys Technology Co., Ltd (鴻佰科技股份有限公司) **Dec 2025 – Jun 2026**

- Demonstrated SOP and quality control checkpoints to international team members for NVIDIA GB300 / Vera Rubin AI server assembly.

Academic Capstone / Backend | Estained Cosmetics (Payroll System) **May – Jun 2025**

- Reduced payroll processing time from 5 days to 3 days by developing a Django-based system within a team of 6 to automate tedious and error-prone manual data entry.
- Drafted technical documentation, including ERDs and system schemas to map out backend architecture and data flow, and deployed the system via Docker on client hardware.

PROJECTS

Homelab Infrastructure & Administration

- Managed remote homelab infrastructure in the Philippines from Taiwan via Tailscale, including a Proxmox host and Windows workstation.
- Hardened remote infrastructure via BIOS passwords, disk encryption, and SSH hardening (public-key authentication, custom ports, disabled password login); implemented network-wide telemetry and traffic filtering via NextDNS.
- Migrated bare-metal Windows environment to KVM virtual machine (P2V) using Macrium Reflect; performed block-level disk cloning and system imaging via Clonezilla.
- Configured VFIO (GPU Passthrough) across both Qubes OS (Xen) and KVM/QEMU for high-performance Windows Guest VMs; resolved driver and audio conflicts through log analysis via journalctl/systemctl.

HackTheBox Academy & Labs

- Analyzed network traffic in Wireshark and tcpdump, isolating relevant hosts/protocols via custom filters, decrypting TLS with provided keys, and spotting cleartext credentials in captured sessions.
- Practiced offensive methodology through guided labs (recon, enumeration, exploitation, post-exploitation), building pattern recognition for likely attack paths, including credential harvesting via network poisoning, offline hash cracking, and privilege escalation via misconfigured services.

EDUCATION

Adamson University (Double Degree) **Aug 2023 – Jan 2028**

Bachelor of Science in Computer Science (in progress)

Manila, Philippines

Minghsin University of Science and Technology

Sep 2025 – Jun 2027

Bachelor of Science in Computer Science and

Hsinchu County, Taiwan

Information Engineering (in progress)

Relevant Coursework: *Computer Networks, Operating Systems, UNIX, Computer Architecture, DSA, Discrete Structures, Databases*

CERTIFICATIONS & SKILLS

- **Certifications:** HackTheBox CJCA (*in progress*); Certiport ITS Python, ITS Databases
- **Languages:** English (Fluent), Mandarin (A1/Beginner)
- **Systems:** Proxmox VE, KVM/QEMU, VFIO, Debian/Ubuntu, Arch, Fedora, Windows
- **Networking:** Tailscale, NextDNS, Nmap
- **Tools:** Python, Bash, SQL, Docker, Git, SSH, C#, llama.cpp
